High School Lit.

The High School Lit held its regular fortnightly meeting in the school building on Friday last.

The program opened with team 2 standing at the front of the room and singing "How do you do, Lit Soc.?"

Duet, "Scrambled Radio," Lydia Robbins and W. Smith. Recitation, "Thunderstruck," A Willie.

Debate—subject, "Resolved that a cow is more useful than a horse." Affirmative, E. Dannhauser and W. Smith. Bill forgot to mention Bovril as an important thing taken from the flesh of cow. Negative, M. Carmichael and L. Litz. Judges, G. Anderson, Wildman, Zucht, Moyer. Result: Cow 16 points, Horse 15.

Editor Giles E. Clarke read his school paper, "The Paper is Improving."

Recitation: "Mr. Smith Fool," G. Willie.

Reading, "Daddy's Got the Rumatiz."

The meeting closed by singing the National Anthem.

LOCAL NEWS.

Miss Emelia Miller, Edmonton, was a visitor here with her parents over the week-end.

Mr. J. Mayer has purchased the Brooks house on Third street.

Mr. and Mrs. Johnny Ulmer moved yesterday to their new house on Main St.

The Women's Institute will hold a whist drive in the Town Hall, Friday Oct. 22d, at 8 p.m. Refreshments, good prizes, admission 50c. Everybody welcome.

A sitting of the District Court will be held in Stony Plain on Wednesday, October 27th.

Mr. Armbruster has installed, and has now in operation, a new Diesel oil-burning engine, to operate the electric-lighting plant which supplies the town with lights. The old system of operating the lighting plant from the steam boiler did not give entire satisfaction, and the new layout is guaranteed to eliminate all causes for complaint.

Mr. Waulbaum last week shipped his first car of chickens for this season from Stony, the shipment going to the Woodland Dairy, Edmonton. As will be seen by the advt., it is Mr. Waulbaum's intention to make regular shipments of poultry from this point. See the local agent when your poultry is ready.

The oil-share selling campaign carried on last December is bringing results—one local would-be investor has been lured to appear at a sitting of the district court in Wainwright on Oct. 19. The summons is signed "R. P. Wallace, Clerk."

The Old-timers of Edmonton District will hold a Hall-o'-en' dance at Sullivan's Academy, Edmonton, Friday, Oct. 20, with special old-time attractions. Everybody welcome. Admission 50c.

The lecture billed for Monday night in Wudel's hall by Mr. Peter Stewart, secretary of the Seed Growers' Ass'n, had to be postponed owing to the lack of an audience, the farmers being too busy to come in to a lecture at the present time.

CHICKEN SUPPER, FRIDAY, Oct. 15, Wudel's Hall, 6 to 8.

M. M. Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Tuesday Oct. 19th, and at Duffield Wednesday Oct. 20. See him and see good.

Red Rose Orange Pekoe is extra good. Won't you try it this time?

The Evolution Of An Empire.

The forthcoming Imperial Conference in London to be attended by members of the British Government and the Premiers of all the self-governing Dominions of the Empire is attracting more widespread interest than any of the preceding Conferences of a like character, with the possible exception of the one held during the war. Some writers and public men seem to think that notable changes in the relationships now existing between Great Britain and the Dominions will result, but there is little ground on which to base such belief.

Since the secession of the American colonies and the American Revolutionary War of 160 years ago, the changing relationship between Great Britain and her overseas possessions has been one of evolution, not revolution. Great changes have taken place, it is true, but the process has been so gradual and all effected so peacefully, that they were hardly noticed at the time. Perhaps the most significant change of all took place when the overseas British Dominions became members of the League of Nations on terms of equality with the Motherland and other nations.

But this gradual development of a more autonomous and independent status has in no sense resulted in any weakening of the imperial tie nor in the solidarity of the Empire. The effect has rather been to add strength to the individual units and to the union embracing them all. The term "Empire" as applied to the British Empire is, in fact, a misnomer. Rather the phrase favored and so frequently used to His Majesty, King George V., more correctly describes what is commonly referred to as the British Empire, namely, the British Commonwealth of Free Nations.

Evolutionary, not revolutionary, tendencies are still at work throughout the British connexion, and it is to be expected that the approaching Imperial Conference will assist to clarify the atmosphere in regard to some matters. India is steadily moving forward along the path to increasing self-government, and Great Britain is not only willing but anxious to enlarge the powers of the people of India just as rapidly as the people become capable of wisely exercising those powers. The history of India will be largely a duplication of the evolution which has taken place in other parts of the Empire.

In South Africa the people appear to be somewhat concerned about the flag, and there is a considerable body of opinion in favor of a distinctive national flag for South Africa other than the Union Jack. But those who are most insistent for such an emblem nevertheless disavow any desire for or intention of a severance of the tie which binds them to Britain and the other British Dominions.

Canada is moving in the direction of appointing its own Minister to the United States with a view to having matters pertaining to Canada and the United States dealt with directly by the two countries concerned rather than through the intermediary of the British Ambassador and the Government in London. But, here again, there is not the slightest wish nor intention of severing or even weakening one tiny strand of the tie binding Canada to the Empire.

Among people in all the Overseas Dominions the view is entertained by many that the present procedure of carrying appeals from the Supreme Courts of the Dominions to the Judicial Committee of the Privy Council in London might well be abandoned, the British Overseas Courts made supreme in fact as well as in name, thus saving lengthy delays and huge expense in obtaining final judicial decisions. But advocates of this change are amongst the most loyal of British subjects.

In the evolutionary process already referred to, one of the most significant changes has been in treaty making powers. Formerly, and not so many years ago, all treaties had to be negotiated and signed by the British Government, although they might have reference solely to one particular Dominion. Furthermore, all treaties made by Great Britain were binding on all the Dominions with or without their consent. Now, however, Canada makes trade treaties direct with foreign countries and they are signed in the name of the King by Canadian ministers. If Canada and the United States desire to make an agreement regarding fisheries, or some boundary matter, the two countries do so and the resultant treaty is signed by Canadian ministers.

Furthermore, the British Government no longer makes treaties with foreign countries affecting the Dominions without first consulting them and such treaties are submitted to the Canadian Parliament for their approval and adherence.

Kipling well describes present Empire relationships: "Daughter am I in my Mother's house, but mistress in my own." The British family tie holds, invisible, almost intangible, elken in texture, but strong and lasting as steel. Changing times, call for other changes, in customs, methods, procedures, but the family remains intact, sympathetic, co-operative, loyal and affectionate, working for a common aim, proud of each other's achievements, united by a common bond, and joyfully yielding allegiance to one sovereign. Thus does the British Empire grow, prosper and triumph.

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Reds Take Possession of Wrangel

Place Fifty Russian Emigrants on Desolate Island

A dispatch to the newspaper Nichi Nichi from Hakodate, Japan, says the Russian volunteer fleet association's ship Stavropol has arrived from Wrangel Island, where it removed the British and United States flags and raised the Red banner.

Fifty Russian emigrants were placed on the island after a thorough exploration by aeroplanes. It was found that vegetation was scarce, but there were a number of fur-bearing animals including bear and fox.

The area of the island was reported as 2,225 square miles.

Home Not Complete Without Nerviline

When your stomach is badly upset, when you are belching gas and suffering from indigestion, the quickest relief will come from 20 drops of Nerviline. Take it in sweetened water and you get an immediate result. Nerviline has been used for nearly half a century and is considered a necessity in most homes, because of its usefulness in preventing many small ills that constantly arise. Bold everywhere in Scott's bottles.

Germany's first skyscraper built on American lines is being erected at Aachen (Aix la Chapelle). It will be twelve stories high, a starting height in Germany, and will house a large picture theatre and a number of business offices.

CHILDHOOD AILMENTS

Can be Quickly Banished With Baby's Own Tablets

The ailments of childhood are many but nine-tenths of them are the one cause and one cause only—a disordered condition of the stomach and bowels. To quickly banish any of the minor ailments of babyhood and childhood the bowels must be made to work regular and the stomach must be sweetened.

No other medicine for little ones has had such success as has Baby's Own Tablets. They banish constipation and indigestion; break up colic and simple fever; correct diarrhoea and colic and promote healthy sleep by regulating the functions of the stomach and bowels. Concerning them Mrs. I. M. Brown, "Woman's World," writes:—"I cannot speak too highly of Baby's Own Tablets as I have found them excellent for childhood ailments." Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cts. a box from The Dr. Williams Medicine Co., Brockville, Ont.

The maximum recorded temperature "in the shade" is 134 degrees Fahrenheit, observed at Greenland Ranch, Cal.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for five small sums, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Makes Coffee Truly Delicious

A Rich, Golden, Appetizing Cup of Coffee is Appreciated.

Much coffee is spoiled in the making, but it is safe to say more is spoiled in the serving. This is because comparatively few people use real cream, figuring, perhaps, that its daily use is rather a luxury. Of course, one can rub the milk bottle, by taking off the top milk, but even that is not calculated to give one the rich, golden, appetizing cup of coffee that makes this beverage truly a nectar. More and more housewives are serving Eagle Brand Condensed Milk with coffee, for the reason that it is economical and because it ensures a beautiful flavor, being so rich and creamy. There is the further advantage that it saves sugar, for condensed milk contains sugar and the milk and sugar are so perfectly blended that the proportions are absolutely right. Usually, the condensed milk is placed right on the table, being served from the can, which, if desirable, may be set in a marmalade jar.

Feet sore?—Minard's Liniment.

Belle—"What do you do when you see a beautiful—an extremely beautiful girl?"

Peggy—"Oh, I look a while, and then I get tired and lay the mirror down."

Minard's Liniment for chapped hands.

Turkey Erects First Statue

With its Unveiling All Koranic Laws Pass into Oblivion

Mohammedan tradition prohibiting representations of the human form has been broken with unveiling of a statue of Mustafa Kemal Pasha, President of Turkey, and one of the outstanding figures in Near East politics.

This is the first statue ever erected in Turkey. It represents the President in European dinner jacket, bare head and with arms akimbo.

The breaking of Koranic tradition against statues of men and women preceded the going into effect of Turkey's new civil code adopted by the National Assembly six months ago. With this code old Koranic laws passed into oblivion.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby and there is nothing so effective for restoring the health of a worm-worm infant.

Wouldn't Stand For It

During an election in England a candidate for parliamentary honors was addressing a meeting of Yorkshire men when he was interrupted by a man who asked: "Art in favor of children going 't' school till they be sixteen?" "Certainly I am," said the speaker. "Well, I'm not," was the emphatic answer. "I'm noone going 'ave my lad comin' 'wider 'trot' 't' school an' axin' me for money for a shave."

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with cold and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

Hardware Clerk.—Sir, I'd like to have my salary raised. Boss.—Well, don't worry. I've managed to raise it every week so far, haven't I?

Every singer in a quartet can point out three good reasons why the organization isn't absolutely perfect.

New Volume Is Written Describing The Wonders And Beauties Of Canadian Scenery

Can you imagine a span of a thousand million years or so? If you can, try to picture to yourself the place where the Rocky Mountains now stand, with their snow-crowned peaks towering into the sky, at the bottommost depths of an inland sea.

Do you know how the Rockies were formed? By what "things" these great masses were crumbled and folded and lifted high in the air?

It is a most interesting story that geology tells us concerning the formation of this gigantic range through the ages—seems before the human race dawned upon the earth, and only one of the many other fascinating things that one learns about one's own land, in "Picturesque America," a deluxe volume, superbly illustrated with 500 photographs and charmingly written, which has been published recently by "The Resorts and Playgrounds of America," New York.

It is a compliment, and not one undeserved, to Canada, that this book, which describes so clearly and well, the wonders and beauties of the parks and beauty spots of North America, should give over more than one-quarter of its space to Canada's great playground. Yet it cannot but be recognized that her parks are unique in their magnificence of form and beauty of color. In their preservation of game and wild creatures, and in their possession of great virgin forests and vast regions as yet unexplored.

The National Parks of Canada are 11 in number and range in area from a few square miles to 5,000 square miles. For the most part they are found in the western part of the country; while the three most beautiful Rocky Mountain parks, Banff, Yoho and Glacier, lie along the main line of the Canadian Pacific Railway.

Many well-known writers, such as Robert Sterling Ward, Zane Grey, Mary Roberts Rinehart, Henry Van Dyke, Charles Lummis, Arthur Stringer, Mary Carolyn Davies, and J. R. Hartin have contributed to this volume, which contains a high standard of literary quality throughout. Verses of nature by equally well-known poets are scattered throughout, and there is added a complete index and bibliography. Hence besides the charm of the book it is invaluable as one of reference. It would seem that its purpose—to make better known and thus better appreciated the scenic marvels of America's wonderlands, must be accomplished.

Dakota Settler Likes Saskatchewan

Says Any Farmer Who Wants to Work Can Make Money in the West

Mr. W. J. Hope gives the following statement of his experience as a settler in Saskatchewan to the Canadian Government Agent at Grand Forks, N.D. "I take great pleasure in telling you what I think of the Canadian Northwest. I purchased three quarters of land in 1921 in the Wood Mountain country, southwest of Moose Jaw. There were 160 acres broken on the farm. In 1921 I operated the farm myself and produced 4,000 bushels of wheat, built a fence around half a section, also a granary, garage and shack.

"In 1923 I rented the farm, and broke 12 acres. In 1924 I broke 26 acres. In 1925 I built a barn with a hay-loft 28 by 32, also a store and a half house, 18 by 22, with full basement, and kitchen 18 by 14. The house is plastered and back-plastered, staired and varnished inside. All buildings are well painted. I also bought one more quarter section."

"This farm has produced enough to pay for all buildings and still have \$2,200 net profit in addition to paying for the farm itself."

"I claim this country is the garden of Saskatchewan. Any farmer who wants to work can make money in this country."

Clifford: "It's a pretty good looking barn, but \$10 seems high. Is it in good condition?"

Harold: "Why's it in the pit of condition?"

Berry picking has been made easy by a patented device, resembling a deer stool, the bottom composed of wire teeth.

W. N. T. 1926

Synthetic Sunshine

Obtaining Food From the Light of the Sun and Nitrogen of the Air

The world need never be hungry as long as the sun shines. So the chemists have declared at the Institute of Politics, at Williamstown, Massachusetts; and since scientists say so it must be so.

Food in the future, it appears, is to be obtained from the light of the sun and the nitrogen of the air. Proteins and carbohydrates—those elements of nutrition which you hardly can escape getting in a good dinner whether you like them or not—will probably be made in the factory rather than raised on the farm. "Thirty men in a factory the size of a city block can produce in the form of yeast as much food value as 1,000 men working on 75,000 acres under ordinary agricultural conditions." These words of good cheer come from the same wise men who recently promised to do away with wars over fuel oil fields by methods of extracting petroleum from coal shale. What the \$70 superseded farmers would be doing, and whether they would like their food in the form of yeast when they got it, were questions left for other prophets.

All the rest of us have to do, it seems, is to trust to the chemists. We all like, at times, to imagine to ourselves the happy life of South Sea Islanders, lying under trees in the sun and allowing ripe breadfruit and bananas to drop into their laps. But in these less kindly northern latitudes where the sun sometimes fails to shine and occasionally it rains, no such easy solution of the problem of living in sight.—From the Outlook, N.Y.

Sardines Leave Home Waters

Cold Currents Along French Coast Found to be Responsible

The French marine research vessel La Tanche has just found out why sardines leave home. The problem has been bothering French fishermen and sardine packers for several years, for the canneries have been threatened with closing down because the tiny fish no longer come in great schools along the French coast.

The research workers found that cold currents have come into the once rich sardine fields and have driven them farther out to sea, where the French fishing fleet, at greater risk, is now hauling them in by netfish.

A Siamese kitten was recently rescued by the steamship President Garfield from a hatch cover floating in mid-ocean.

Dusting vs. Spraying The Potato

Report of Experiment Undertaken at Fredericton, N.B.

The report for 1925 of the Dominion botanist is particularly worthy of study and cognition by every agriculturist and grower of any sort of produce. It is a report of rare comprehensiveness, covering records of investigation and remedial experiments of practically every disease conducted by pathological experts connected with the Dominion Experimental Farm System. Mr. D. M. J. MacLeod, plant pathologist in charge at Fredericton, N.B., deals largely with diseases affecting the potato. Among other things he tells of a valuable experiment carried out to test the relative efficiency of various dusts as compared with spray mixtures, about which there is considerable diversity of opinion.

A field of four and three-quarters was divided into three plants of equal area. The land was of average fertility and apparently uniform throughout. Certified Green Mountain potatoes were experimented with. Liquid Bordeaux was applied by means of a power sprayer. With a four-row twelve-nozzle boom and Bordeaux dust and copper carbamate dust by means of a Niagara traction crop duster provided with a drag canvas. Efforts were made to apply the dust and spray mixtures—the composition and application of which are given in tabular form in the report, which is to be had free on addressing the Publications Branch, Ottawa—in such quantities that equal amounts of metallic copper would be used.

While the results are not considered conclusive, the experiment having been conducted for only one year, a table published allows that better yields followed the Bordeaux dust than the spray as applied with power machines against such diseases as early and late blight.

Won Many Prizes

Nineteen First Class Prizes for Creamery Butter Won by Alberta at Toronto Exhibition

At the Canadian National Exhibition held recently in Toronto, thirteen exhibitors of creamery butter from the province of Alberta were awarded 19 first prizes, six second prizes and eight third prizes. In addition the silver cup for the highest scoring butter on exhibition was awarded to the Woodland Dairy Ltd., of Edmonton, on a score of 98.7 per cent out of a possible 100 points, and further, in tie class for the highest average score of exhibits in the various classes the second and third prizes were awarded to the Central Creameries Ltd., Calgary, and Mr. C. E. Christensen, of the Edmonton Pure Butter Co., Edmonton.

Children's clothing may be made practically fireproof if soaked for a few moments in a solution of ammonium phosphate.

Discovery Is Made That Rust Spores Are Spread By Winds Over Great Distances

An Important Industry

Export of Flower Seeds from B.C. Is Rapidly Increasing

The culture of tulips promises to become an increasing industry in British Columbia. The activity thus far has been confined to Vancouver Island, where it has been conducted successfully at Saanichton, Sidney, Cowichan, Duncan, Royal Oak, Victoria and other points. It is now likely to be extended to the mainland.

"The production of flower seeds has become an important industry in this province. Every year a greater quantity of seed is shipped from British Columbia, and England in particular is coming to depend to a greater extent on the warm climate and rich soil of Vancouver Island for its supply of seeds. Millions of flowers blossoming all over England have generated from seeds produced in Canada."

The commercial production of sweet pea seed in particular has made great strides in the last few years, and a considerable trade has developed with seed houses in England. Sweet peas grown on Vancouver Island by an English gardener reached such perfection that he sent a sample to the old country. In response came an immediate order for half a ton of seed. Experts of Canadian seed of all kinds in the last three fiscal years have been respectively worth \$5,547,742, \$10,211,487 and \$16,792,105."

Filming Clouds

American Moving Picture Concern Goes Abroad to Get Cloud Effects

The resources of the canning industry in the States is well known, but a new phase commences when the cinema people decide to "can clouds." Hollywood is an ideal place for film making, owing to the clear air and bright sunshine, but there are pictures which need cloud scenes, and to complete them it is often necessary for the photographer to go far afield for his effects, what time the release of the film is delayed. To overcome this defect, and to have a reserve of "clouds," the Metro-Goldwyn-Mayer company have decided to have a man specially engaged in "shooting" cloud scenes, and the celluloid records will be kept in the familiar tin, at the headquarters of the firm for use as, and when, required.—London Chronicle.

Helen: I fear I have made a mistake.

Ruth: Why?

Helen: He proposed in a taxi cab. The minute I accepted he paid the fare and we got out and walked.

It is not altogether comforting to know that rust spores can be carried from great distances and are to be found at very considerable heights. However details of spore-trapping experiments co-operatively conducted by the Royal Canadian Air Force and the Dominion Rust Research Laboratory at Manitoba Agricultural College, given by Dr. D. L. Bailey, pathologist in charge, in the Dominion Botanist's report for 1925 are beyond measure interesting. The idea of the investigation or experiment was to collect all data possible regarding the origin and spread of black stem rust in Western Canada by studying the spore-content of the upper air over various districts during the season.

As the report suggests the results obtained by the first year's work of this kind are striking. In the first instance the wind dissemination of rust spores over large areas and for considerable distances has been established. Over heavily wooded areas widely separated from cereal-growing districts indications were definitely obtained that even at an altitude of 5,000 feet the concentration of spores was surprisingly high. And this upwards of three hundred miles from the nearest wheat-growing region. This, says Dr. Bailey, accounts in large measure for the almost miraculous sudden appearance of rust over large areas. Because once rust becomes prevalent in the spring wheat area of the United States the rust spores can very rapidly be carried north in large numbers by a south wind.

Getting Rid Of Weeds

Publicly Rewarding Farmer Who Keeps His Land Clean

Recently a party of Esteyn business men went on a tour to observe the weeds in the crops and along the roadsides and wrote letters to the newspapers about the careless farmers who were allowing their land to be overrun by weeds, making them unprofitable to themselves and a menace to their neighbors.

Not very long ago the business men of Swift Current noticed with concern that the farms in the district were becoming badly infested with weeds. In order of making the farmers they got their heads together, raised a substantial sum of money among themselves, offered a prize to the farmer in the district who had the cleanest farm and presented him with a cup at a banquet held in his honor.

Which method will produce the best results? It is hardly necessary to say that the Kiwanis Club of Swift Current has done the right thing in the right way. The farmer who keeps his farm clean and grows only clean crops deserves the applause of his fellow-citizens. The farmer with a dirty farm is not always to blame. He may have just bought the land, he may not have sufficient help to work it properly, it may be so badly infested with weeds that the sprays of his fellow-citizens, all requiring different methods of eradication, that he may hardly know where to begin, but he is not as good a farmer or as good a citizen as the man who regards weeds in his crop as a standing reproach against his own reputation and the honor of his farm. And the business man who scolds the farmers for not getting rid of weeds is not as good a business man or as good a citizen as the one who puts his hand in his pocket and co-operates with others in publicly rewarding the farmer who goes in the most trouble to keep his farm clean.—Saskatchewan Farmer.

Population Increase

An average increase of nearly 80 per cent in the population of twenty federal electoral districts in Manitoba, Saskatchewan, and Alberta, as compared with 1921 figures, is shown by the quinquennial census of the three provinces, taken on June 1, 1926. The total population of these twenty electoral districts is given as 803,826, compared with 525,208 in 1921. This announcement is made in a preliminary statement of population recently issued by the Dominion Bureau of Statistics.

"Ho: 'Dearest, am I the first man that ever held you in his arms?'"

She: "Yes, of course. Why do you men always ask the same question?"

WORLD HAPPENINGS BRIEFLY TOLD

Professor F. Alexander Guthrie, 50
president of the University of Jena,
Germany, committed suicide. No rea-
son is assigned for his act.

Britain is now exporting more cars
to the Dominions at the rate of 21,000
a year. In 1923 the number of cars
exported was only 5,600.

Seven hundred and seventy-eight
women shoppers have been caught
in the last five years by Miss Gertrude
Hunter, a detective employed in one of
London's largest department stores.

After cruising three days with
plate crew, the Chinese steamer Hsin
Fung arrived at Hong-Kong, the
plates having fled on the approach of
aeroplanes.

Frank "Tex" McLeod, 41, well
known as a rider and roper at western
races in the United States and
Canada, was killed near Nyanm, Mont.,
when his automobile overturned. He
had driven but a few times and appar-
ently lost control of the car. He was
alone at the time.

New Discovery Kills Catarrh Germ Gives Quick Relief

Nasal catarrh, clogged nostrils, obsta-
inate and annoying head colds, dull head-
aches, sneezing, blood noses—no matter
how bad—now yield almost instantly to
the amazing power of **Gerro Wormwood Balm**. A delightful, clean and pleasant
home treatment, positively harmless to
the most delicate tissues, but powerful
enough to break up congestion, rid in-
flammation and kill germs within a few
minutes. Your throat and nasal passages
are cleaned like magic—you breathe freely
and easily as nature intended—and your
dull old head feels clear and keen.

To prove that this is absolutely true
and to quickly introduce the treatment
to thousands of catarrh sufferers who
hold it—all druggists are now authorized
to supply **Gerro Wormwood Balm** on a
strict guarantee of swift and full satis-
faction or money back. No matter how
many treatments you have used without
success—if you really want to be freed
from catarrh, don't miss this opportunity
to try **Gerro Wormwood Balm** without
slightest risk of cost unless pleased with
results. A 50c box will last for weeks.

England's King Never Dies

The King of England never dies.
The moment a sovereign passes away,
his title, dignity and powers automati-
cally are transferred to the heir ap-
parent, who thereupon becomes "of
age" even though he may not have
reached his majority.

Girls! Good Health Adds To Your Personality— Makes You Attractive To Men

Bright eyes, a clear complexion, rosy
cheeks, animation, make for beauty
every time. A well woman is always
beautiful.

Take a bottle of one of two well-
known **Golden Medical Discovery**, which has stood
the test of time, namely:

**Dr. Pierce's
Golden Medical
Discovery.**

Thousands in every Province have testified
that instead of being pale, weak and tired this
discovery gives them unusual vitality.

Immigration And Balanced Production

By C. W. Peterson

Every now and then objections are
raised to policies having for their ob-
ject an increase in Canada's popula-
tion, on the grounds that we have not
yet completely solved our industrial
unemployment problem and, there-
fore, should not add to our present
difficulties. Such objections are based
on a complete misapprehension. They
would undoubtedly be valid in fully
developed, overpopulated countries,
but that line of reasoning cannot con-
sistently be applied to a new country
like Canada. One family placed on a
farm will create employment for from
one to two additional families in our
towns through its own consumption of
commodities, machinery and the like
and through producing the raw materi-
al of urban industry.

The recent European war and its
aftermath brought home to the world
a multitude of strange economic facts,
many of them as old as the hills, but
up to that time wholly unrecognized.
One of the outstanding lessons taught
mankind was that there is absolutely
no limit to the amount of work to be
done in this world, or to the amount of
business to be developed. The truth
is that over-production is inconceiv-
able. The purchasing power of every
country lies in its own power of pro-
duction and the more each country
produces, the greater may be its trade
with other countries, and the more
they all produce together, the greater
the variety of comforts and necessities
available for the world's population.
We have not even approached within
measurable distance of satisfying re-
asonable human wants alone over
supplying them.

What Canada, and many other coun-
tries, has suffered from during recent
years, and what has given rise to gen-
eral unemployment, is not over-pro-
duction, but unbalanced production.
While Canada's population has been
unequally distributed, our aggregate
working force has been, and still is,
vastly below our minimum national re-
quirements. With millions of acres of
the world's richest agricultural land
lying idle and undeveloped, and the
world clamoring for food, it is para-
doxical to harbor an unemployment
problem. Widespread unemployment
under such conditions is prima facie
evidence of bankrupt statesmanship
in so far as sufficient intelligence and
energy has not been focused on the
solution of a problem which obviously
lends itself to correction by well
known and proven methods, namely,
the augmentation of our productive,
agricultural population, which would
speedily find full time employment for
our industrial plant.

The ease with which corns and
warts can be removed by Holloway's
Corn Remover is its strongest recom-
mendation. It seldom fails.

Tramp—"I've asked for money,
begged for money, and cried for
money, lady."

Lady—"Have you ever tried work-
ing for money?"

Tramp—"No, lady, I'm doing the
alphabet and I haven't got to 'y' yet."

People who are never in a hurry to
begin believe in the theory that it
is never too late to mend.

From Scotland's Best Experimental Farm

This is one of 23 magnificent Clydesdale stallions which arrived recently
on the Anchor-Donaldson freighter *Carnia* at Montreal. They were none the
worse for their long sea voyage from Glasgow, but were enthusiastic over
getting ashore again. The shipment of pure-bred horses was brought over
by Q. C. Pitt, of Richlea, Saskatchewan, where they are now exploring their
new Prairie home.

Studying hard? Boys and Girls need SCOTT'S EMULSION

"IDEAL
fashions—"

Bordered Materials are Smart

Features of The New Mode
The mode for bordered fabrics finds
expression in this simply designed one-
piece frock of kasha flannel. The new
wide belt favors double buckles for
fastening, and is worn at the top of
the hips. The convertible collar is
fashioned of the border, as is also the
tiny vestee, pocket and narrow cuffs,
to which are gathered full sleeves. No
1201 is in sizes 34, 36, 38, 40 and 42
inches bust. Size 36 requires 2 1/2
yards 54-inch bordered material; or
3 1/4 yards 36-inch if made of plain ma-
terial. 20 cents.

Our Fashion Book, illustrating the
newest and most practical styles, will
be of interest to every home dress-
maker. Price of the book 10 cents the
copy.

SUNDAY SCHOOL LESSON

OCTOBER 17

MOSES HONORED IN HIS DEATH

Golden Text: Precious in the sight
of Jehovah is the death of his saints.
Psalm 116:15.

Lesson: Deuteronomy 32:45-52; 34:
5-8.

Devotional Reading, Psalm 116:12-19.

Explanations and Comments

1. Moses Exhorts the People To
Observe the Law, 32:45-47. The work of
Moses was over. He earnestly charged
the people to remember all the words
of the law which he had given them
and to command their children to keep
the law.

"The natural and the appointed
place for children to make the ac-
quaintance of God is their own home.
The most powerful and persuasive lips
for declaring the awful sanctities on
religion are the priestly lips of or-
dained parents. I would prefer the
early guidance of the illumined father
and mother to the instruction of all
the state teachers and official priests
in Christendom."—(Dr. J. H. Jowett).
"For it is not a vain thing for you;
because it is your life"; in these words
Moses reminded them how very impor-
tant were the laws which they must
observe—they were not trifles, but
matters of life and death. "Through
this thing ye shall prolong your days
in the land, whither ye go over the
Jordan to possess it."
If they would enter into life, keep
the commandments! (Jesus).

For all pains—Minard's Liniment.

Frozen milk in huge blocks is being
shipped from Seattle to China and
Straits Settlements. The milk is said
to be fresh when thawed out upon ar-
rival.

Good-bye Asthma. Persons suffering
from that extremely trying trouble
known as asthma know what it is to
long with all their hearts for escape
as from a tyrant. Never do they know
when an attack may come and they
know that to struggle unaided is vain.
With Dr. J. D. Killogg's Asthma
Remedy at hand, however, they can
say good-bye to their enemy and enjoy
life again. It helps at once.

A SURE RELIEF FOR WOMEN'S DISORDERS 10 DAYS' TREATMENT FREE

Orange Lily is a certain relief for all disorders of women. It is supplied locally and
is absorbed into the suffering tissue. The dead waste matter in the con-
gested region is expelled giving immediate mental and physical relief; the blood
veins and nerves are toned and
Strengthened; and the circulation is
rendered normal. As this treat-
ment is based on strictly scientific
principles, and acts on the actual
location of the disease it cannot
help but do good in all forms of
female troubles including delayed
and painful menstruation, disor-
ders, falling of the womb, etc.
Price 50c per box, which is suffi-
cient for one month's treatment. A
Free Trial Treatment, enough for
10 days, worth 75c, will be sent Free
to any suffering woman who will
send us her address.

PROBABLY NO OPPOSITION TO KING MINISTERS

Ottawa.—Conservative "political observers" expressed the opinion that there will probably be no opposition by their party to the re-election of any of the Liberal ministers at the coming by-elections on November 9, made necessary by the formation of the King cabinet.

While no official announcement has been made, it is intimated, however, that the final decision is a matter to be dealt with by the Conservative executive in the various ridings affected. The belief that Liberal ministers will be returned without opposition, insofar as Conservative headquarters are concerned, is partly based upon an official statement issued recently from former Premier Meighen's office that the presence of Premier W. L. Mackenzie King at the Imperial conference will be facilitated as far as possible.

Already advice has been received from Regina that Conservatives there will offer no opposition to the re-election of Hon. C. A. Dunning, Minister of Railways and Canals.

There are rumors, though, of possible opposition by local Conservatives to Col. J. L. Ralston, in Nova Scotia, in the event of his appointment to the portfolio of Minister of National Defence.

Old Manuscripts Found

Unknown Poems of Persian Poet Discovered in India

London.—The discovery of previously unknown poems by Omar Khayyam is reported in a despatch to The Daily Express from Karachi, British India. The correspondent says workmen in digging for a foundation for a building at Sahayn, in the Province of Sind, unearthed a brass case containing manuscripts of many hitherto unknown quatrains written by Omar during his wanderings in Sind.

Omar, a Persian poet and astronomer, died in the first quarter of the twelfth century.

Lady Stanley Dead

Wife of Famous African Explorer Was Seventy-One

London.—Lady Stanley, widow of the famous African explorer Sir Henry M. Stanley, died at the age of 71.

Lady Stanley was a noted beauty and was famed in artistic and literary circles. She was an accomplished painter.

Although Lady Stanley married Dr. Henry Currie, a famous surgeon, in 1897, three years after the death of Stanley, she continued to be known generally as Lady Stanley.

Hopes To Set Record

London.—Lady Hoare, wife of Sir Samuel Hoare, air minister in the British cabinet, hopes next spring to set up a long distance airplane record for women.

She will accompany her husband on a flight from London to India, via Egypt, a distance of 4,750 miles. The flight will inaugurate a regular passenger service, which will at first extend from Cairo to Karachi, India.

Coal Strike Affects Brazil

Rio De Janeiro, Brazil.—The British coal strike is crippling Brazil's transportation facilities, the government having cut down train service in order to reduce the consumption of coal. The shortage in coal is due to the fact that many steamers have discontinued the South American trade in order to handle the more lucrative transport of coal from the United States to Europe.

Not Coming To Canada

Paris.—Princess Beatrice has declined not to accompany her sister Queen Marie of Rumania on the latter's visit to Canada and the United States. The reason for her change of mind has not been made public.

Royal Wedding Set For November 20 Stockholm.—The wedding date of Princess Astrid of Sweden and Crown Prince Leopold of Belgium has been set for November 20 in Brussels.

W. N. U. 1850

Russian Returns As Envoy For Soviets

Seeks British Gold For Rehabilitation Of Russian Industry

London.—The return of Leonid Krasin to London as soviet envoy is thought to make the beginning of a new phase of Anglo-Russian relations. M. Krasin, as he admitted in a general interview with the British press, comes seeking money for the rehabilitation of Russian industry, and as he is a keen business man he realizes it cannot be obtained unless serious arrangements for the repayment not only of the new, but the old debts are made immediately.

His return is due to the culmination of a long series of secret negotiations with persons who, while not directly representing the conservative British Government, are in close touch with it.

The conservative government is very anxious to resume friendly relations with Russia for the sake of the Russian market, which, it is afraid, may go to Germany if the resumption of relations with England is long delayed. However, Prime Minister Baldwin still insists on a settlement in principle, at any rate, of the old debts. It is believed Russia is now willing to do that not called on to pay too much and too soon.

The British also are disposed to insist on some guarantee that Russia will cease to interfere in the domestic affairs of Great Britain, and is willing to give a guarantee not to interfere in Russia. This means Russia must promise to cease financing labor troubles in England.

May Visit West

Sir Alan Cobham Is Planning Trans-Canada Flight

London.—Sir Alan Cobham, upon whom the honor of knighthood was conferred a few days ago in recognition of the famous aviator's series of world-renowned flights, will visit Western Canada some time in the near future. It is stated in reliable quarters here that Cobham is planning a trans-Canada survey flight in which he will visit many many points in the Dominion. No definite date has yet been set for this projected trip, but it is said to be one of the flight plans entertained by the British ace for the near future.

The Daily Express today said that Cobham was contemplating a trans-Atlantic plane flight and that it would likely follow a lecture tour throughout North America. Plans for this flight have been under consideration for some time, the paper stated.

Sir Alan Cobham but recently returned to London from a round trip to Australia, in which he proved conclusively the feasibility of such long distance flying if experienced aviators and worthy planes are employed.

To Welcome Massey

Washington.—Welcome for the new Canadian representative to Washington, who, it is said, will be Vincent Massey, is expressed editorially by Labor, the official publication of the railroad employees' organization. Labor declares a better understanding of Canada is needed in the United States and says United States newspapers do not provide sufficient news concerning Canadian affairs.

Poultry Conference Postponed

Regina.—F. H. Auld, deputy Minister of Agriculture, has received notice that the conference called in Ottawa for the purpose of discussing standard grades of dressed poultry has been postponed at the request of the Canadian Produce Association. C. M. MacRae, acting Live Stock Commissioner at Ottawa, is forwarding this information, saying that the conference probably will be held in January.

Will Carry Out Pact

Montreal.—Canada's Liberal government intends to carry out the terms of the 1925 trade agreement made with the British West Indies and ratified at the last session of Parliament. Hon. J. A. Robb, Minister of Finance, declared at a banquet tendered by Liberals of St. Lawrence-St. George here.

Designs For New German Flag

Berlin.—More than 1,000 designs for a new German flag are understood to have been submitted to the government. The flag question has been pending since the argument began between supporters of the old imperial flag and that of the republic.

The Smuggling Investigation

N. W. ROWELL, K.C.

Hon. N. W. Rowell, counsel for the Government, who will be associated with Mr. Calder of Montreal, in connection with the investigation of the smuggling charges.

Steamship Lines Feel German Competition

Liners Being Taken Off New York To

Montreal.—Competition from German steamship lines operating to New York from Hamburg is said to be responsible for the projected withdrawal in the near future of several British companies from that run. The White Star line, which operates the Atlantic on a five weeks schedule to Halifax and New York, return being made direct to Hamburg, took this ship on the run after her departure from Hamburg October 2. The liner will be employed on the Antwerp, Boulogne, Southampton, Halifax, New York service, her sailing from New York October 30 being direct to Antwerp and the next from Europe will be out of the Belgian port.

The S.S. Andania of the Cunard Line has been on the Hamburg, Southampton, Cherbourg, Halifax and New York service, but it is expected she will be taken off on the completion of her schedule which calls for a sailing on October 26 and another on December 1 to Halifax and New York.

No change is being made in the Canadian Pacific sailings to Hamburg.

Awarded Gold Medal

Toronto.—Allan Brooks, Vancouver, B.C., artist-naturalist, has been awarded a gold medal by the Canadian National Exhibition for his work in the Wallace Havelock Robb collection of bird-paintings shown in the natural history section of the exhibition.

Indian Summer in Canadian Rockies

Miss Gladys Bole of Portland, Oregon, a Denhauser pupil—poses on the Victoria Glacier, two miles from the Chateau Lake Louise. Miss Bole plans to bring a class of pupils for instruction in aesthetic dancing to the Chateau Lake Louise next summer.

Wheat Pool Payment

Final Payment On 1925 Wheat To Be Made Soon

Winnipeg.—Several millions of dollars will be distributed among the farmers of Western Canada, members of the Wheat Pool, shortly.

The final payment on 1925 wheat delivered by members of the pools in Manitoba, Saskatchewan and Alberta probably will be announced early this week. A. J. MacPhail, president of the Saskatchewan Wheat Pool and vice-president of the Co-operative Selling Agency, will announce the date from his Regina office, according to information secured at the Manitoba Pool offices.

Mr. MacPhail is the chief official now in Canada, the others being in en route to Australia. The Canadian Pool has already made three payments totalling \$140, while many farmers are now enjoying the initial payment of \$1 on the 1926 crop. Deliveries of the 1925 crop, however, are far behind last year's, owing to the wet weather. The total deliveries in Western Canada so far this year are about 40,000,000 bushels. Very little grain has been received from Alberta, but Saskatchewan has contributed 25,000,000 bushels, and Manitoba about 15,000,000.

Will Honor War Dead

Two Wreaths Being Sent Overseas By St. John's Ambulance Brigade

Montreal.—Tribute from Canada to those from all parts of the Empire who gave their lives in the great war will be paid by the St. John Ambulance Brigade overseas in the laying of the wreath in London and on the tomb of the unknown warrior who lies in Westminster Abbey of two wreaths of maple leaves and sprigs of spruce and pine. These have been made by the St. John Ambulance Brigade overseas nursing division No. 13, the Montreal unit of the organization, and are now ready for shipment to St. John's Gate, the order's headquarters in London.

The wreaths will be deposited on Armistice Day by Mrs. Lancelotti, the order's superintendent in chief for all brigades overseas, on behalf of the women of the order, and by Major General Sir Richard Havelock Charles, chief commissioner for the St. John Ambulance Brigade overseas for the men members.

To Help Needy Musicians

New York.—Marion Talley, young Metropolitan opera star, has insured her life for \$200,000, the earnings of which will go to worthy boys and girls who are without funds to pursue a musical education. Miss Talley also insured her life for an additional \$200,000, naming her parents and sister as beneficiaries at \$100,000 each, the company announced.

LORD BYNG IS INTERVIEWED ON REACHING HOME

Southampton.—Lord and Lady Byng arrived at Southampton on board the Empress of France, which was gaily decorated with bunting. The former Governor-General of Canada and Lady Byng were officially welcomed by the mayor and sheriff, and then his lordship received a large group of newspapermen.

One of the first enquiries put to Lord Byng by the press representatives was with regard to his constitutional power as Governor-General, which question was raised recently in connection with the political situation at Ottawa.

"I think we had better leave that alone," said Lord Byng with a laugh. "Everything turned out very satisfactorily. If the question is raised at all, it will be at the Imperial conference, but at the present moment there is nothing one can say about it. As I say, it all worked out very well."

Asked about the recent Dominion general election Lord Byng expressed the opinion that the result of the election was mainly due to the popularity of the Robb budget, with reduced taxation, and to three good harvests.

Lord Byng spoke with enthusiasm of the prospects, which Canada opened to British people who were prepared to work hard there.

Some of the newspapermen asked Lord Byng about the national status of Canada and the possibility of the fusion of the Dominion with the United States.

"There are extremists in every part—Imperial extremists and Canadian extremists," His Lordship replied.

"Is the union of Canada with the United States possible?" was another question asked of His Lordship.

"An union of friendliness, most certainly," replied Lord Byng, "who throughout the interview stood the almost incessant, caustic, with characteristic patience and good humor. 'You need not worry about Canadian extremists on this side of the ocean,' he added.

Talking on his relations with the politicians at Ottawa, Lord Byng said: "I have been Governor-General when Conservative and Liberal ministers have been at the head of affairs, and my relations have been anything but of an extremely friendly nature with everybody."

Crowned Cauliflower King

Manitoba Gardener Captures Prize At Show Held In Cleveland

Ottawa.—At the American Vegetable Growers' Association annual show, held at Cleveland, Ohio, Kluas De Jong, a market gardener of East Kildonan, Man., six miles north of Winnipeg, was crowned cauliflower king of North America.

In competition with entries from 11 states, Mr. De Jong carried off the championship prize for the 12 head of cauliflower that he exhibited because of their superiority in size, weight, uniformity of shape and general appearance. Each of the dozen cauliflowers measured 14 inches in diameter.

Discuss Liquor Problem

Victoria.—Conferences between the liquor law administrators of British Columbia, Alberta, Saskatchewan and Manitoba were held here by R. D. Waugh, of Manitoba, presiding. The western provincial officials explained they had under consideration problems of liquor administration which have become common to the four provinces since they adopted the government control system. Their session was private and dealt only with liquor administrative methods.

Curative Powers Of Sun

Paradise.—The curative powers of the sun's rays are to be greatly increased during the next year, according to Dr. Edwin Path of Mount Wilson Observatory here. He has announced he has found that the ultra-violet rays of the sun, the part of the sunlight that cures some diseases and also causes sunburn, are to be more numerous in 1927. This is caused, he said, by the increasing spots on the sun.

Stony Plain and District.

At Glory Hills, on Sept. 26, to the wife of H. Netty, a son.

The H.S. Lions and Tiger football teams played a fast game on Friday last, the result being that the Lions took the game by a score of 2 to 0; another result being sore shins, etc. Teams—Lions: W. Smith, L. Outway, Alf Davis, Art Davis, L. Miller. Tigers: G. Clarke, C. Wildman, Bredo, S. Anderson, Happy Willie.

At the meeting Friday of the Public School Lit. a very interesting program was given, with Miss Lulu Mayer presiding.

Mr. Cominsow last Saturday celebrated the 1st anniversary of the opening of his Store in Stony Plain, and was the recipient of congratulations from his large circle of friends. The success achieved by this enterprising merchant proves there is truth in the old adage: "It Pays to Pay Cash."

Mrs. E. Owen, late of Paris, France, is anxious to arrange classes at Stony Plain for the study of French. Write 11122 62nd St., Edmonton.

The phones in the Edmonton Rural district are being fitted with the automatic number device, and the system will shortly be put in operation.

Mr. M. Aronson of Holborn has lost two heifers. Anyone seeing these, as described in the advt., would oblige by phoning R106.

Along with the two grain elevators and other improvements which are being located at Carvel, the village will soon have the added convenience of a local phone exchange. This will be located in Mr. Howat's departmental store.

The W. L. held its regular monthly meeting Wednesday Oct. 6, at the home of Mrs. R. A. Walton. Following the regular business, Mrs. L. Kowensky, as delegate, gave her report of the constituency conference recently held in Edmonton. The report was very comprehensive, and covered the ground very well. Mrs. Wood then gave a very interesting paper on "Canadian authors and literature," which was enjoyed by everyone. Tea was then served by the hostess, Mrs. Walton and Mrs. S. C. Elliott. The meeting then closed.

The banquet given by members of the Girls club Wednesday night in Wudel's hall was greatly enjoyed by their guests. The hall had been specially decorated for the occasion with overgreen boughs, clusters of red rose buds, sprays of yellow grain. The tables, laden with roast chicken, cranberry sauce, salads, pickles, fruit, sherbet etc., presented a very inviting appearance. After the banquet the toast "Our Country" was responded to by Mr. Robins; the toast "Our Mothers" by Miss E. Wolfe; Fathers, Miss L. Meyer; Girls Club, Mrs. Elliott; the toast to Mrs. Wood as the club's supervisor, Mr. McCulla responded to expressing appreciation of everyone present for such a delightful evening and Mrs. Woods untiring efforts on behalf of our girls club members and adding a few well chosen words of fatherly advice to the girls themselves. Following the toast the Misses H. Leeder, L. Zucht and E. Umbach gave excellent readings. The club had as their guests: Mr. and Mrs. J. F. Clarke, Mr. and Mrs. Elliott, Mr. and Mrs. McCulla, Mr. and Mrs. Robins, Mr. and Mrs. A. Wolfe, Mr. and Mrs. Michael, Mr. and Mrs. H. Leeder, Mr. and Mrs. Zerkow, Mr. and Mrs. I. Umbach, Mr. and Mrs. M. Zucht, Mr. and Mrs. R. Wood, Mr. and Mrs. L. Kowensky.

Spruce Grove News

Dave Bell, the Atwater-Kent agent, has installed a new 6-tube radio set at his establishment, which gets 'em all!

Harvest home services will be conducted on Sunday next the 17th at St. Matthew Lutheran Church at the Grove, with Rev. G. Poetzsch as pastor.

The Loeblich threshing outfit pulled over this week to Mr. McLaughlin's farm. The latter gentleman made a close connection with his grain, as he had three binders cutting grain up to the day before threshing.

The Prohibition movement is so strong at the east end of Town the local butcher is considering the advisability of changing the name of his shop to the Water Lily Meat Emporium.

Mr. Ducholke went to the City Saturday morning, with his tractor, came back in the afternoon with a separator, and had the outfit in operation in the evening. Mike is some hustler.

Hunters from the City gave this district a thorough going-over on Saturday last, on the worst path after game. This season the bag limit per day is: Ducks 36, prairie chicken 10, Hungarian partridge 15. An addition is being built to the McLeod General Store, extending along Railroad ave.

Canadian Apples for Overseas Firesides.

Canadian orchards are being heavy with luscious red apples, symbols of Canada's sunshine and her bright, warm summer days. The crop this autumn is the best in years, and boxes and barrels of choice hand-picked and hand-packed fruit are procurable at reasonable prices from any grocer.

And could anything be more appropriate to carry your kind thoughts and good wishes to the fireside of your friends overseas, this Christmas, than a box of these ruddy cheerful-looking apples. The matter of shipment is as simple as the mailing of a card.

The Canadian National Express will call for your apples, transport and deliver them, by quick service to any station in Great Britain, Ireland and most European countries.

The transportation charge from Montreal and Quebec up to Nov. 15th, or from Saint John and Halifax thereafter, by direct steamer to points in Great Britain, Ireland and the Channel Islands is \$3 per standard box and \$5 per standard barrel, including refrigeration.

For rates to Canadian Ports, thru rates to Continental Stations and other particulars, consult any Canadian National Express agent.
